

A TOUCH OF
EXCELLENCE

A TOUCH OF EXCELLENCE

WAHLUNG LABELS
is an Egyptian company
that was established in 2008
and part of Kazareen
textile group (KTG).
We are an experienced
manufacturer and exporter
specialized in the design
and manufacturing of
various trims, labels,
and accessories required
in the garment and
textile industry

WAHLUNG LABELS has become a leader through focus on developing and delivering solutions of the highest possible reliability. We partner with global leaders in coding, labeling and supply chain technologies because we believe that to be the best.

WOVEN LABELS

SATIN . DAMASK . TAFFETA . TWILL . PATCH

WAHLUNG LABELS specializes in the production of woven labels. Every label prepared is 100% custom, ensuring your logo, lettering and colors are woven as accurately as possible. Whether you are an established company or a brand new start-up, WAHLUNG LABELS can help you brand your items with a woven label that will fit your needs and budget. All woven labels are delivered to you cut, finished, folded and ready to sew.

WAHLUNG LABELS

PRINTED LABELS

Printed labels are frequently used for garments and apparels, but can also be used for accessories, footwear, furniture, and other products that need custom printed labels for branding and information. Custom printed labels are versatile and have been used in clothing and fashion products for many years.

SATIN LABELS . CARE LABELS . ACETATE LABELS
BARCODED LABELS . TAG LABELS

WAHLUNG LABELS

HANG TAGS

Hang Tags do not only provide brand information, they add value to your clothing and product lines by strongly identifying your brand and products on display in a sophisticated and professional manner. Hang tags can be creatively produced with customized shapes, materials, colors, finishes, thicknesses, folds & much more.

Hang Tags are an elegant solution for a multitude of labeling projects for an affordable and professional look. We customize hang tags to any shape and size that may be needed in a variety of types.

HEAT TRANSFER

Heat Transfer provides imagery and text fused to fabric for permanent messaging and appeal.

Heat Transfer labels, also known as "heat-seal tags", are silk screen pined onto a stock of transfer paper or PE sheets and come pre-cut and ready to apply. You can print up to four colors for heat transfer labels on simple designs. Digital Transfers are also available. The heat transfers are very high quality and stand up through dozens of washes without cracking or puckering.

PACKAGING

For WAHLUNG LABELS, custom package design manufacturing is a lot about collaborating with our customer and finding the best way to make them realize their ideas and concept.

Our items are developed for your needs in clothing, footwear, furniture & much more. Flat custom die cut products are provided and can be assembled into unique packaging such as boxes, envelopes or bags.

ADHESIVES

PRICE TICKETS . ADHESIVES . CARE LABELS

Variable data is one of WAHLUNG LABELS's core capabilities. Our global solution is tailored for order management, vendor maintenance, price management and data analysis for retailers to optimize their supply chain. Products are ordered globally and delivered locally to save time and reduce delivery costs.

POLYETHYLENE BAGS

HIGH DENSITY POLYETHYLENE . LOW DENSITY POLYETHYLENE . POLYPROPYLENE

WAHLUNG LABELS customizes polyethylene bags to fit your branding. Polyethylene bags come in two types: low density and high entity with side sealing or bottom sealing based on your preferences. Polyethylene bags can include up to four colors and are implemented with flexographic printing.
